## Every Woman Knows

That if her outer gown is to appear at its best there must be a perfectly smooth foundation underneath. The "DeBevoise" figure forming Brassiere is the ideal dress foundation.

It gives your figure correct lines where the corset has no effect. No matter what position the wearer assumes the De Bevoise completely hides that unsightly ridge from the top of the corset that so often shows through and mars an otherwise well-fitting gown. A large assortment of models for every figure is shown in Thalhimer's Corset Department at 50c to \$1.50.

## One of the Season's Correct Corsets is the American Lady

This corset is designed in strict accord with the styles. They produce the fashionable low bust, the long hip and back. They make good figures and mark good dressers. It is the correct foundation for your gown; therefore, it is necessary to wear the American Lady Corset, that gives the modish swing to your gown and yet lets the wearer be comfortable. There is a corset for every figure, and it can be found here in this up-to-date Corset Department, where we have a large variety of American Lady Corsets at \$1.00 to \$5.00. Let our expert corsetieres help to select the model suitable to your individual figure.

## Children's Millinery
